

Homework to be completed by Wednesday 8th May

Maths Revision

Have a look through your recent Maths test.

1. Using a different coloured pen, have another go at *SOME* (not all) of the questions you got wrong.
2. 'Google' some of the things you are not sure about and write some notes on your test paper to help you to remember things.
3. There are also some very good Youtube videos on things like fractions but please make sure you have an adult with you when using the internet.
4. If you made some silly mistakes, write a list of these on the front of your test paper.
5. Write 2 areas you would like help with next week.

This is not a test - you can discuss questions and get help from other people.

Keep up the hard work - we've almost made it!

This week's spellings: Term 3A Wk 1
