Dear Parents,

23 April 2021

**PARENT GOVERNOR ELECTION**

You should already have received ballot papers giving you the opportunity to vote for your preferred candidate. Please complete and return the ballot paper no later than 12 noon on Thursday 29 April. The result will be published in next week's letter.

**LIBRARY NEWS** We are pleased to be in a position to re-establish our library for whole school lending once again. Children from Year Two to Year Six will be able to request books online through Librasoft which will then be delivered to classrooms. Year One pupils will be choosing from boxes of preselected library books in their classrooms and Reception pupils are lucky enough to be part of the library bubble. Let us know if there are particular titles which your child would like us to purchase to add to our library collection. Reading regularly for pleasure has a huge effect on pupils' well-being and academic performance.

**ONLINE SAFETY** Pupils at Seamer and Irton CP School use the internet across the curriculum, and we are committed to ensuring that they develop a secure understanding of how to stay safe online in a secure and supportive environment. At home it can be difficult keeping up with the ever-changing technologies that children use independently and their levels of internet access. Social media is becoming more and more popular and the desire to be a part of this is increasing in younger children. The sites often have age restrictions yet more and more children are signing up.

You can find more parental guidance on almost any app as well as general issues such as technology and mental health using the National Online Safety Website:

Common Sense Media is also a great website to find out what your children are really accessing, playing, watching or reading. Find out what other parents say as well as the experts:

Did you know that you can help control what your child is viewing online via You Tube? There is now a dedicated children's site called 'You Tube for Kids' which limits what your child can search for.

**SCHOLARPACK PARENT APP** We have recently upgraded our schools MIS (Management Information System) to a new provider called Scholarpack. One of Scholarpack's many features is their email, SMS and Parent App. Newsletter's and other general correspondence shall be emailed and urgent messages sent via text. You may wish to download the parent app to also access messages, your child's attendance, medical records etc. We sent out an email before the Easter holidays to your email address with instructions about the app and a link up code. This was sent to your child's 'first parental' contact on their school record. The app is free of charge on Apple and Google stores.
